(among low-income households)

Coalition/Partnerships
(Bringing expertise to shared vision and implementation).

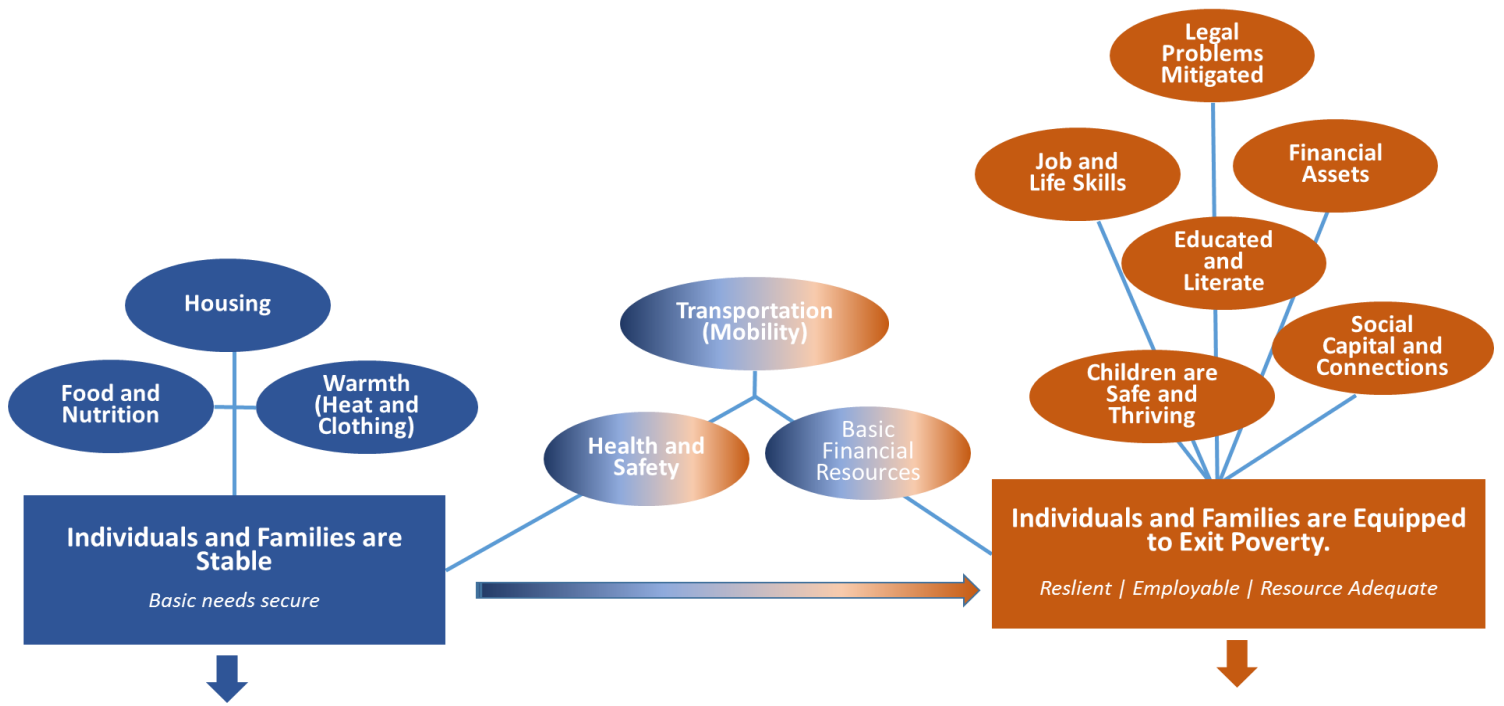

Backbone/Catalyst
(Leadership or coordination of shared vision implementation).

Assessment with Partners

Coordinated Targeting of Existing Resources

Leveraging Resources

Creation of New Resources

Healthy Individuals and Families

Community Action Agencies are uniquely equipped to provide anti-poverty expertise at the individual, household, and community levels. They fulfill a distinct role in assuring that work on the ground informs community building and vice versa (community needs and goals shape services on the ground).

Healthy Communities

All outcomes, indicators, and strategies will be developed and implemented with an eye toward reducing bias and increasing inclusiveness.
